

NOVOTHOR

Whole body light
therapy

[Learn More >](#)

**Our focus on Light
Therapy and only Light
Therapy for over 30 years
has led us to a deep
understanding of the
subject.**

We've been around for a while—so we build products that will be around for a while. Our products are backed by experience conducting research with the world's leading institutions and over 30 million client treatments, so they will deliver an impactful treatment for years and years and years.

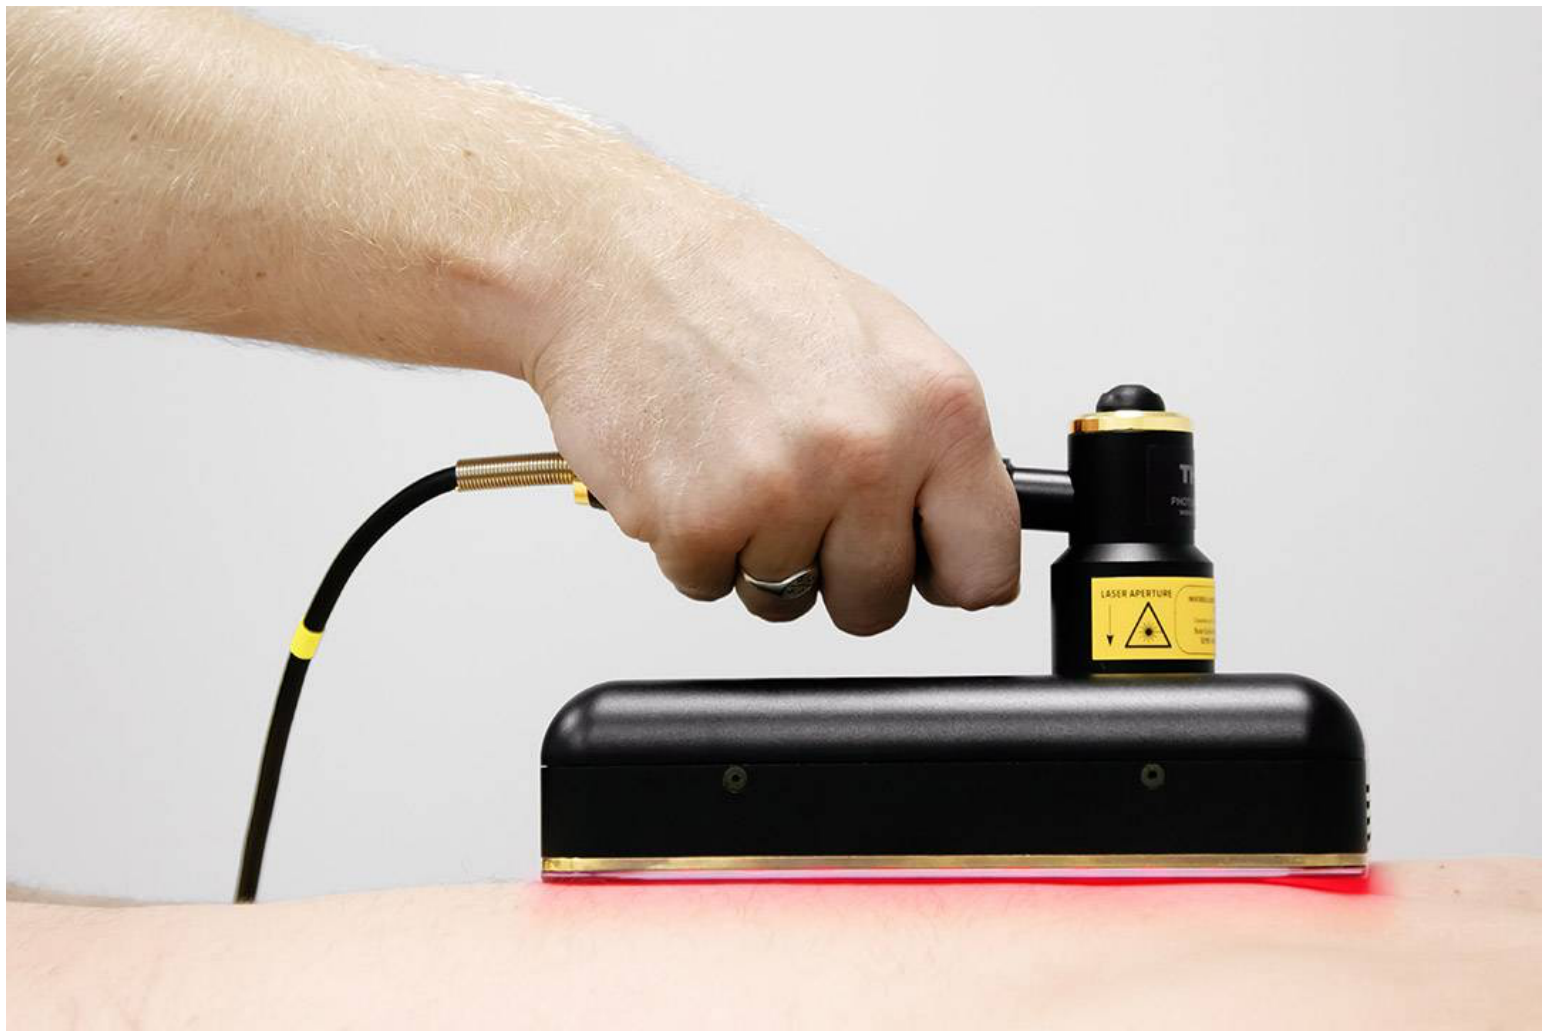

**Relief for muscle
and joint pain,
without
resorting to
using drugs.**

The LX2 treatment probes
relieve muscle and joint pain
and reduces stiffness
wherever the beam is applied
—and it can be applied
anywhere.

**For groundbreaking
research hospitals,
small businesses. US**

special forces, and over 20 US pro sports franchises THOR is the choice for delivering Light Therapy

With over 5,000 customers in
pioneering facilities in over 70
countries, we're relied on and used by a
wide variety of organizations around the
world and we work directly with each
and every one to support the
successful introduction of Light
Therapy

THOR Photomedicine's Giant Laser Cluster

**Partnering with Harvard
Medical School, St Jude
Children's Research
Hospital, and Memorial
Sloane Kettering, we
continuously strive to
explore and shape the
future of the field**

Our experience has led us to brief the White House and US Congress, to advise leading research hospitals and universities, and teach institutions around the world the fundamental principles of using Light Therapy

**Many
different
treatment
probes. One
connection
to rule them
all.**

All the probes for the LX2 use the same plug—so when the next innovative treatment is released, it will be compatible with your system.

**With probes
and the
control unit
made from
milled
aluminium,
you can
expect your
products to
last. We do.**

One size
does not fit
all— so find
a perfect fit
instead.

From pin-
point
accuracy to
large
treatment
areas, you
have plenty
of choice.

THOR's LX2 and accessories are intended to be used for the temporary relief of minor muscle and joint pain and stiffness, minor arthritis pain, or muscle spasm; the temporary increase in local blood circulation; and/or the temporary relaxation of muscle.

**Call us.
Email us. Fill
out the
form. You'll
be put
through to a
person, not
a bot.**
